Profile

Yorkshire based developer with a previous background in International Trade.

Resume Objective

Seeking a full time, remote developer role that encourages progression and learning. My international trade background gave me the problem solving skills and a pragmatic, logical approach to handle projects big and small. In my spare time I am studying the MERN stack and come with white label experience with Wordpress. Launching August 2023, Outfox Code, a blog site dedicated to equipping others with the right tools, awareness and mindset to become developers, regardless of background.

Work Experience

Application Developer, [InHealthcare](#) – August 2022 to Present

Development, build and testing of digital healthcare solutions. The role involves but is not limited to:

- Build, fix and updating of healthcare pathways for both NHS and private organisations.
- Manual and automated testing to ensure services are robust and behave as expected.
- User requirement and user story creation to focus the approach of build and tests.
- Integrating client systems (SystemOne, EMIS, NSS) with company platform and client/patient portal
- Creating deployment instructions/documents for the commercial team
- Raising, diagnosing and fixing bugs within existing services
- Operating with awareness of clinical risks, GDPR and cyber security risks

Tools/Languages used:

- In-house IDE for core build with Java, HTML, CSS, Groovy, JSON, Liquid, REST API, JWT
- Cypress for ATF testing. (Visual Studio Code, Gitlab, NPM, CLI)
- AWS for data integration
- Agile sprint methodology for project planning

Notable projects:

Health Call Frailty Virtual Ward – what is a virtual ward? Click [here](#)

[Priority](#) – part of a team of 3 building a booking system to cover over 25 physical sites (ongoing)

Custom Clearance Clerk, Bradtrans – March 2022 to August 2022

Import/Export Co-Ordinator (part time), Halco Brighthouse – June 2021 to March 2022

Data Contractor (part time), Beauhurst – January 2021 to June 2021

Export Specialist, Drive Devilbiss Healthcare – January 2020 to September 2020

Exporting medical equipment worldwide + training staff on export/import procedures.

Transport Co-Ordinator, Ishida Europe Limited – September 2013 to December 2019

Exporting/Importing multi-million dollar weighing machinery worldwide

Key Skills

HTML, CSS, Javascript (React, Typescript, Node.js, Express), Wordpress (PHP, SQL), Cypress
